“

I'm thrilled to share that, thanks to HigherEd, I've landed an interview with BAT Nordics!"

– Student who attended the Global Fairs 2024

The screenshot displays the HigherEd Sourcing interface. At the top, it says "Sourcing" and "Talent Pool: HR Consulting". Below this is a search bar with filters for School, Work authorization, Languages, Degree level, Field of study, and Graduation year. A list of candidates is visible on the left, including YUTIAN, Kofi, Kin, Hwaier, Minobelle, John, Donghai, Alexander, Rectana, Nahkur Bannan, Pawan, and Maria.

The main profile shown is for Marika San Giuliano, a verified user. Her profile includes a "Send message" button and a "Manage Pools" button. To the right, there are sections for "Languages" (Polish, English, Portuguese, Tagalog, Spanish) and "Education" (London School of Economics, Master - International Management, 2020 - 2021).

Overlaid on the right is a chat window with Marika San Giuliano from the London School of Economics. The chat history shows a message from the recruiter: "Hi Marika, I saw your profile and it looks like you could be a good match for us. How about we schedule a meeting, and I can tell you more?" (just now). The recruiter's response is: "Hi! I'm available on Thursday afternoon from 2 pm to 4 pm." (just now). Marika's reply is: "Great! Let's have a call at 2 pm. I'll send you the Google Meet link shortly." (just now). A Google Meet link is provided: meet.google.com/vm-ggiw-jig. The chat window also features a "Meet Real-time" button.

Built to Deliver Opportunities

Highered offers the opportunity to find international offers in sectors that are generally difficult to enter. What attracted me to Highered was the large number of global offers and the opportunity to attend virtual fairs and webinars that I found interesting and quite useful.

Eduard Sancho-Ibáñez

I've been looking for an opportunity like this for the past 3 months, so I'm super excited to join the program either in Egypt, Switzerland or Austria.

I like the fact that this platform is designed in a user-friendly way and enables you to link with LinkedIn pretty easily. I did mention about this platform to my friends so that they can increase the chance of getting the job.
